SUMMMARY

Third-year Computer Science and Engineering student with interests in software development, UI/UX design, web development, and AI-based applications. Skilled in Java, Python, front-end development, and problem solving. Experienced in student leadership, event coordination, and collaborative technical projects. Seeking internship opportunities to apply technical and creative skills in real-world environments.

EDUCATION

Government Engineering College Sreekrishnapuram, Palakkad
B.Tech in Computer Science and Engineering
2024 – 2028

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C
- **Web Development:** HTML, CSS, JavaScript
- **UI/UX Design:** Figma, Poster Design
- **Tools & Technologies:** GitHub

PROJECTS

- **Smart Ballot -** Developed a secure online voting system using Java for small-scale college elections. Implemented user authentication to validate voters, voting logic to ensure each user can vote only once, and result management features to count and display election results efficiently. Designed the application to simplify the election process while maintaining accuracy and basic security
- **FocusBruh -** Developed a distraction-monitoring web application using Python and Mediapipe to help users maintain focus while studying or working. Implemented webcam-based face and attention detection to identify when a user looks away from the screen or is absent for a prolonged period. Added customizable focus-time settings, allowing users to set a study or work duration and receive alerts during distraction events, encouraging better productivity and concentration.
- **Build-A-Key -** Developed Build-A-Key, a responsive password generator using HTML, CSS, and JavaScript. The application creates personalised password suggestions using a user's name, date of birth, and car or phone number, with options to control password length, digit count, and special characters. It generates multiple password choices, supports regeneration and copying, and does not store user information or generated passwords.

INTERNSHIP EXPERIENCE

- **Edzpace Innovations Pvt. Ltd. | Web Development Intern** August 2026
  Successfully completed a Web Development Internship, gaining exposure to front-end development, responsive web design, and professional web development workflows

LEADERSHIP & ACTIVITIES

- Vice Chair – IEEE SB GEC Palakkad (2026)
- Co-Lead – Void Minds Club (2026)
- Coordinator – Matrix 3.0 National Level Hackathon (2026)
- Secretary – IEEE CS SBC GEC Palakkad (2025)
- Joint Secretary – Void Minds Club (2025)
- Event Coordinator – FOSS Club (2025)

Participations

- IEEE YESS'25 – IEEE Kerala Section
- TinkerHub 24-Hour Makeathon (2024, 2025)
- IEEE Technical Talk on Model Order Reduction (2025)
- TinkerHack Women's Hackathon (2026)

ACHIEVEMENTS

- Awarded Best Office Bearer of IEEE Computer Society Student Branch Chapter GEC Palakkad (2026)
- Selected among the Top 300 Participants in TinkerHack Women's Hackathon (2026)
